Fallen Dragon is the second book in the Commonwealth Saga, a science fiction series by Peter F. Hamilton. The book follows the Commonwealth as it investigates a mysterious attack on one of its member planets.

The Commonwealth is a vast interstellar empire that has existed for centuries. It is made up of hundreds of planets, each with its own unique culture and government. The Commonwealth is a peaceful organization, but it is also very powerful. It has a powerful military that is capable of defending itself against any threat.

However, the Commonwealth is facing a new threat. A mysterious alien race has attacked one of its member planets, destroying the planet and killing millions of people. The Commonwealth is determined to find out who is responsible for this attack and bring them to justice.

Fallen Dragon follows the Commonwealth as it investigates the attack. The investigation leads the Commonwealth to a distant star system where they discover a powerful alien artifact. The artifact is a key to a powerful weapon that could destroy the entire Commonwealth.

The Commonwealth must now race against time to stop the aliens from using the weapon. The fate of the Commonwealth hangs in the balance.

Fallen Dragon is a gripping sci-fi epic that will keep you on the edge of your seat from beginning to end. Peter F. Hamilton has created a vast and complex universe that is full of interesting characters and exciting action. Fallen Dragon is a must-read for fans of science fiction.
