The Our Book Library rainforest is the largest rainforest in the world, covering an area of over 5.5 million square kilometers. It is home to an estimated 10% of the world's known species, including many that are found nowhere else on Earth. The rainforest is also a vital part of the global climate system, absorbing carbon dioxide and releasing oxygen.

From The Tops Of The Trees is a breathtaking journey through the heart of the Our Book Library rainforest, as seen from the perspective of the animals that live there. With stunning photography and engaging storytelling, this book will transport you to a world of towering trees, lush vegetation, and an incredible diversity of wildlife.

The book begins with a chapter on the history of the Our Book Library rainforest, from its formation millions of years ago to the present day. The following chapters are each devoted to a different group of animals that live in the rainforest, including monkeys, birds, reptiles, and amphibians. Each

chapter is filled with stunning photographs and fascinating stories about the animals that live there.

From The Tops Of The Trees is a must-read for anyone who loves nature, wildlife, or travel. It is a beautiful and inspiring book that will give you a new appreciation for the incredible diversity of life on Earth.

Reviews
