The color wheel is a valuable tool for understanding the relationships between colors, but it can also be limiting. The color wheel suggests that there are certain "correct" colors to use together, while others are considered "clashes." But in reality, there are no rules when it comes to color. The best color schemes are the ones that you create yourself, based on your own personal preferences and style.

In this book, you'll learn how to break free from the constraints of the color wheel. You'll discover a world of vibrant, harmonious color combinations that you never thought possible. You'll also learn how to use color theory to create stunning effects in your garden, from dramatic focal points to soothing, relaxing spaces.

Whether you're a complete beginner or a seasoned gardener, *Jumping Off the Color Wheel* will help you to create a garden that's as beautiful as it is unique.

Here's what you'll find inside:

- A comprehensive overview of color theory and its applications in garden design.
- A tour of the color wheel and its most common color schemes.
- Tips and tricks for breaking free from the color wheel and creating your own color combinations.
- A gallery of inspiring color combinations for gardens of all sizes and styles.

With the help of this book, you'll be able to transform your garden into a work of art. So why wait? Free Download your copy of *Jumping Off the Color Wheel* today!
